National Chairman Says

WILL NOT INTERFERE WITH NOMINATIONS

Strong Sub-committee Being HIGH WIND PREVENTS Chosen to Direct Fight in East-Former Senator James Smith, of New Jersey, Probable Leader.

New York, Aug. 1.-Norman E. Mack, chairman of the National Democratic committee, arrived in the city today to plan the Bryan campaign in the east. Chairman Mack made it clear that the national committee would have nothing at all to do with the New York State campaign. Of State affairs he said:

"The Democratic State committee in New York is thoroughly competent and able to handle the situation without any interference from the national committee. I am national chairman and have nothing to do with the State pampaign. Let me say that the State shairman and I are in perfect accord and everything done so far by the State committee has been more than satisfactory to the national committee, which will not in any way interfere with the nominations in this State. Purther, the State committee will conduct its own fight.

Strong State Committee.

"The sub-committee, which will have Brection of the national campaign in the east, will be made up of men capable of conducting an efficient camaign. The State committee has never been so strong. Altogether everything will be done to make a vigorous fight in the eastern States. I expect to leave for Chicago Monday evening." Chairman Mack is forming a sub-

pommittee of the national committee, which will conduct the coming campaign in the East with headquarters in this city. While Mr. Mack will be chairman of this committee, a vice chairman will be appointed who will be in active charge of the committee's operations. Former Senator James Smith, of New Jersey, is spoken of prominently in connection with the vice chairmanship,

Mack to Stay West.

The plan for a sub-committee was announced today on the arrival from Buffalo of Chairman Mack, who will remain here for three days before his departure for Chicago where he expects to remain during the major portion of the national campaign. Mr. Mack conferred today with Urey

Woodson, secretary of the national committee, with National Committeeman Roger Sullivan of Illinois, and other prominent Democrats on the personnel of the sub-commtitee, which Mr. Mack says will be made up of national committeemen and party leaders east of the Alleghenies. The names of the committee will be made public in Chicago early next week.

Mr. Mack made it known that while he would only occasionally visit New York, it was planned to wage an active fight for the national ticket in the East, and that to this end Mr. Bryan would, following the New York State convention in September, make two important speeches in New York-one in Buffalo and one in this city. Mr. Bryan will not make the number of speeches in this campaign that he has in other Presidential struggles, said Mr. Mack.

Prospects are Bright. Speaking of Democratic prospects,

Mr. Mack said: have heard from committeemen and prominent Democrats all over the pountry and while it is too early to make forecasts I can say at this time ters from well-known Democrats in | Hoey and James M. Foley, New York one was hurt. many parts of the United States who were not active or interested in recent campaigns who announce their readiness to do all they can for the ticket. I do not know of a Democrat who is hot ready to do all he can. Judge Parker accepted immediately a tender of a position on the advisory committee and will do whatever the committee cepted a position on the same committee without delay."

STRIKE THREATENS CANADIAN PACIFIC

UNION MEN OBJECT TO SLIDING SCALE

St. Paul, Minn., Aug. 1.-A special from Winnipeg, Man., says: What will undoubtedly be the biggest strike in the history of railroading in Canada will begin on Tuesday, un-

less the improbable happens. The trouble is between the Canadian Pacific Railroad officials and the union machinists of the road, who demand that the officials agree to the working schedule in force before May 1st. All the machinists' unions voted to strike at midnight last night unless the company granted their demands, which the

officials refused to do. Though many of the machinists are working today it is because communication has not-been had with all the unions along the system. According to union officials here, everything has been arranged for the men to go out on Tuesday from coast to coast. Neither the company nor the union men will give out any statement.

The trouble arose from the fact that the company demanded a sliding scale. to which the unions objected. The controversy was referred to a conciliation board appointed by the government, and this board promulgated a new scale to go into effect this morning. The unions refuse to sign the award of the conciliation board and began preparations for fighting the company along the entire system.

Winnipeg, Man., Aug. 1.-Returns received here today from nearly all the machinists' unions on the Canadian Pacific system west of Fort William, show that 90 per cent have voted to strike rather than accept the report of ONE AND INJURES SIX the board of conciliation which con-

UNABLE TO TELL OF HER EXPERIENCE

Wanders Aimlessly Through Grounds of Her Home, but Is Unable to Recognize Any Members of Her Own Family.

Pittsburg, Aug. 1.-Pretty Clara Konter, the 18-year-old country girl who was abducted and held captive for over 36 hours and then mysteriously returned early Tuesday to her father's home at Shoustown in an apparently lifeless condition, is tonight hovering between life and death. She is still in a daze from her terrible experience, not recognizing even her parents.

The girl will be moved early tomorrow to a Pittsburg hospital. So serious has her condition become in the last few hours that physicians fear she will not live throughout the night. Late tonight it was decided by her parents to send for the pastor of the church of which Clara has been a life-long member, as they despaired of their daughter ever recovering consciousness. Tonight the girl acts as one in a trance. All efforts to secure her attention were fruitless and until she fell completely exhausted she persisted in wandering aimlessly about the house and grounds surrounding

Babbles Incoherently.

She babbles continually in an incoherent manner about a yellow-bodied buggy and a tall dark man. The two physicians in attendance disagree as to the mysterious power that holds the young girl in its thrall. Dr. C. P. He admits, however, that if his theory is the correct one, the trouble may have been caused by the experience through

which she has passed. The girl was awakened shortly before noon today after a sleep that lasted over 100 hours.
