Although the capacity of Captain Baldwin's gas bag is less than one fourth that of the British dirigible, its lifting capacity is nearly as great.

## Handicapped by Economy.

"There are many things that should be on my dirigible which I have not been able to use because of the specifications

ope, which add much to the equilibrium the one from Sullivan county and the one of the airship. Two mechanics have arrived from the G. H. Curtis works at Hammondsport and are assisting Captain Baldwin in preparing the machine for its summer snapshots. Every picture received by the EVENING

place Saturday next. G. H. Curtis, the aeronaut, who will ac-company Captain Baldwin on the triat flights, is expected to arrive Wednesday.

That the views of Captain Thomas S.

Baidwin regarding the superiority of his

military dirigible balloon have limitations

is the opinion of Mr. Karl Dienstback, expert of the Aero Club of America, who is

closely associated with Mr. Henry Far-

man in his plans to fly his aeroplane here.

There can be no comparison between

Baldwin's balloon and that of Count Von

Zeppelin, because of the vast difference in helr size. The discovery made by Captain

Astor, Mr. Dienstback sald:-

Every day the rivalry between the contestants in the Amateur Photographic Contest is becoming more keen. The scores of scenes received by the Evening TELEwhich the car is suspended, while Count GRAM in every mail show just how great is the enthusiasm which has been awakened among the amateur photographers in the struggle for the \$100 in gold to be awarded. The pictures entered are of a widely different character, but all contestants show that their aim has been to bring out

the most striking feature of the scene which appealed ito them. In to-day's group pictures from four of the Eastern States are shown, the Long Island enthuand the low cost at which the ship was necessarily constructed," said Captain Baldwin this afternoon, while working upon the assembling of his machine at Vt., while of a different character, is also
